

Getting Started with binni Tunneling

Thank you for choosing binni! There are a few easy steps that will need to be taken to get you started.

Download binni App

binni Tunneling can be accessed via browser (<https://tbm.binni.co>) or via app on your mobile device. To download the app you will need to:

1. Access the Apple App Store, Google Play or other app marketplace where you would download apps.
2. Once on your app marketplace of choice search for “binni tunneling”
3. Download the “binni tunneling” app

Creating User

Once you have downloaded the app you will need to create a username and password to access your projects. To do so:

1. Open the binni application either in your browser or on your mobile device
2. Click on “New User?”
3. Enter your email address, create a password and enter the signup key which is **ttVE2D**
4. Click the “Create Account” button
5. You will then be prompted to login using the username and password you just created
6. Once logging on you will be notified that a verification email has been sent to your email
7. Once this email has been received, verify your email address by clicking the link

Congratulations! You are now able to use the binni software platform through the mobile application or browser. Once you log on you will see the projects and TBMs that you are a part of and have been authorized to work on.

Please don't hesitate to reach out with any questions to info@binni.co
